ANALYZE THIS

Because you can't manage what you can't measure!

New Product

The new WipFrag Reflex will identify individual vehicles/ vessels and at the same time, measure the size of material they are carrying.

WipFrag Now Has Reflexes!

What is WipFrag Reflex?

WipFrag Reflex is a completely automated sampling system for measuring the size distribution of material in trucks, scoop trams, railcars and vessels in both surface and underground settings.

This latest equipment from WipWare automatically "senses" the presence of vehicles and vessels, identifies them, sizes the contents, creates a data log of this information and makes it available to all those requiring this information via LAN or existing data management software.

New WipFrag Reflex Probe

Watch for upcoming stories on this exciting new technology presently in use in Canada and Sweden. ■

WipWare Receives Nomination Award for Innovation.

Tom Palangio receiving innovation award at the Ontario Global Traders Award Ceremony

The Ontario Global Traders Award for Innovation recognizes excellence in applying technology to the development of new products that have led to both export growth and job creation.

"Our small and medium-sized companies are exporting the very best that Ontario has to offer to buyers all over the world" said Jim Flaherty, Ontario Minister of Enterprise, Opportunity and Innovation. ■

Visit Us At Our Next Upcoming Events!

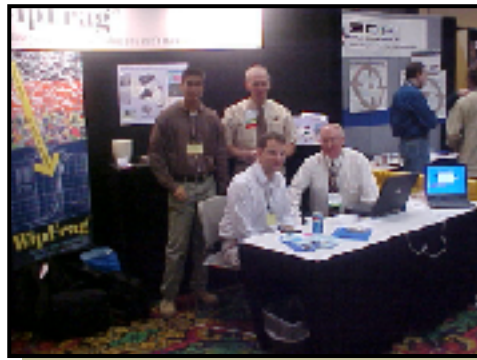

We Want to See You at the ISEE Conference in Nashville

Stop by booth #519 at the next ISEE Conference in Nashville Tennessee. It will be held at the Opryland Hotel, February 2nd to the 4th, 2003.

While visiting our booth, enter our draw and you could win an original sculpture by Ernie Fauvelle.

Stop by our booth at the next ISEE Conference for a chance to win this "Fire in the Hole" sculpture.

Tom Palangio Jr. manning the WipWare Booth at the 2002 ISEE Conference

Dave Dannenberger of Buckley Powder Co. receives the statue on behalf of Jim MacDonald, from Tom Palangio, VP WipWare Inc.

Last Years Winner

The winner of the mining sculpture "fire in the hole" draw at the 2002 ISEE Conference was Jim MacDonald - Buckley Powder Co. of Englewood Colorado.

Next Event: The SME meeting in Cincinnati, Ohio - February 24 to 26, 2003
WipWare will be represented by Calder & Workman
